Appreciation Letter: Speaker at the Principals' Seminar 2024

Dear Dr Ngema

This communique serves to relay a heartfelt appreciation from Luphawu Empowerment Solutions for the opportunity provided when I was invited to be the speaker at the Principals' Seminar that was held at your headquarters in Empangeni.

The topics that were covered in the seminar showed your progressive stance and commitment in addressing workplace challenges while creating inclusive work environments for your members. The engagements were enlightening and very interactive which was encouraging to me as one of the speakers.

It is my belief that we will stay connected and explore opportunities for future collaborations or workshops that can further address matters related to workplace harassment in schools. I have attached LES Business Profile for easy reference, and do feel free to reach out if there are any upcoming events or initiatives where LES expertise could be beneficial.

It was an honour to share my insights and experience with such an engaged audience.

Best Regards

Zoleka Ntshoza
